

SENECA SPOTLIGHT

jazz ON THE ALLEY 14TH YEAR OF JAZZ!

**POPULAR DOWNTOWN
EVENT RETURNS FOR
2024 SEASON!**

It feels like spring is ready to make an entrance when ads for Jazz on the Alley start to pop up on social media, in the newspaper, and on the radio. Does that mean we are excited to see all our Jazz friends again? Yes! We are ready for winter to move on out --almost flip-flop time!

For 14 years, Jazz has lifted our spirits and satisfied our need to leave the dreary days of winter behind, put on our dancing shoes, and spend the evening outdoors with family and friends.

This year Jazz on the Alley officially returns with a pre-Jazz performance by popular band "Stone Echo" on March 28th with a lively lineup already arranged for month of April. The newest addition to the Jazz evening, "Happy Hour on the Alley" will kick off 2024 in April.

We are looking forward to seeing old friends, making new friends, and moving forward with hope and optimism for 2024!
Please join us on March 28th at 6 pm for Stone Echo!

News from

Yes, folks, we have black bears in our service area, and it's time for them to start foraging for food. Be smart and be sure to remove tempting items from your yard and decks.

While people may be excited about seeing a bear, remember that bears are wild animals and should be respected. Black bears are usually shy, evasive and non-aggressive toward people.

Neither a human fatality nor even an attack has been attributed to a black bear in South Carolina. (SCDNR)

So, don't give them a reason to hang around. And, just remember, this is their home, too.

Be BearWise

Six At-Home BearWise Basics

Never Feed or Approach Bears

Intentionally feeding bears or allowing them to find anything that smells or tastes like food teaches bears to approach homes and people looking for more. Bears will defend themselves if a person gets too close, so don't risk your safety and theirs!

Secure Food, Garbage and Recycling

Food and food odors attract bears, so don't reward them with easily available food, liquids or garbage.

Remove Bird Feeders When Bears Are Active

Birdseed and grains have lots of calories, so they're very attractive to bears. Removing feeders is the best way to avoid creating conflicts with bears.

Never Leave Pet Food Outdoors

Feed pets indoors when possible. If you must feed pets outside, feed in single portions and remove food and bowls after feeding. Store pet food where bears can't see or smell it.

Clean & Store Grills

Clean grills after each use and make sure that all grease, fat and food particles are removed. Store clean grills and smokers in a secure area that keeps bears out.

Alert Neighbors to Bear Activity

See bears in the area or evidence of bear activity? Tell your neighbors and share information on how to avoid bear conflicts. Bears have adapted to living near people; now it's up to us to adapt to living near bears.
